The Super Champ™

Mailing Solution

The mixed-weight manifesting solution that empowers mailers to maximize postage savings.

The Super Champ's unique approach to processing mail builds on nearly 30 years of direct mailroom experience. Utilizing Eii's exclusive smart class conversion – combined with differential weighing and industry-leading manifest software – The Super Champ enables the handling of multiple types of mixed-weight mail simultaneously. Harnessing a mobile OCR ring scanner, the Super Champ allows operators the use of both hands for processing.

This reliable technology provides a throughput of 500+ parcels per hour, even in the most demanding environments!

- Position mailroom staff to uncover savings like seasoned professionals
- Determine optimal postage discounts and quickly maximize postage savings
- Simplify Priority Mail preparation for discounted Commercial rates
